Availability of Approved Resource Management Plan and Record of Decision

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Availability of the Approved Resource Management Plan and Record of Decision for the Roseburg District, Oregon.

SUMMARY: In accordance with the National Environmental Policy Act of 1969 (40 CFR 1550.2), and the Federal Land Policy and Management Act of 1976 (43 CFR 1610.2 (g)), the Department of the Interior, Bureau of Land Management (BLM), Roseburg District provides notice of availability of the Approved Resource Management Plan (ARMP) and Record of Decision (ROD) for the Roseburg District. In addition to describing the decisions, the ARMP will provide the framework to guide land and resource allocations and management direction for the next 10 to 20 years in the Roseburg District. This ARMP supersedes the existing Roseburg District (Drain, Dillard, North Umpqua, South Umpqua) Management Framework Plan, and other related documents for managing approximately 425,588 acres of mostly forested public land and 1,717 acres of non-federal surface ownership with federal mineral estate administered by the Bureau of Land Management in Douglas County in southwestern Oregon.

ADDRESSES: Copies of the ARMP/ROD are available upon request by contacting the Roseburg District Office, Bureau of Land Management, 777 NW Garden Valley Blvd., Roseburg, Oregon 97470. This document has been sent to all those individuals and groups who were on the mailing list for the Proposed Roseburg District Resource Management Plan/Final Environmental Impact Statement. The full supporting record for the ARMP is available for inspection in the Roseburg District Office at the address shown above. Copies of draft RMP/EIS and proposed RMP/final EIS

are also available for inspection in the public room on the 7th floor of the BLM Oregon/Washington State Office, 1515 SW Fifth Street, Portland, Oregon; and public libraries throughout Douglas County during normal office hours.

FOR FURTHER INFORMATION CONTACT: Cary Osterhaus, District Manager, Roseburg District Office, Bureau of Land Management. He can be reached by telephone number at 503-440-4930 or by FAX at 503-440-4948.

SUPPLEMENTARY INFORMATION: The Roseburg District ARMP/ROD is essentially the same as the Roseburg District Proposed Resource Management Plan and Final Environmental Impact Statement (PRMP/FEIS). Virtually no changes to the proposed decisions have been made, except for some clarifying language in response to the eight protests BLM received on the Roseburg District PRMP/FEIS and as a result of ongoing staff review. The clarifying language concerns:

- Language revisions intended to clarify some management direction.
- Language revisions intended to strengthen the link between the ARMP and the 1994 Record of Decision for Amendments to Forest Service and Bureau of Land Management Planning Documents Within the Range of the Northern Spotted Owl and Standards and Guidelines for Management of Habitat for Late-Successional and Old-Growth Forest Related Species Within the Range of the Northern Spotted Owl (or Northwest Forest Plan/ROD).
- Revisions that incorporate guidelines issued by the Regional Ecosystem Office since the issuance of the 1994 Record of Decision named above. Such guidelines may clarify or interpret the 1994 Record of Decision.
- Revision of land tenure zone boundary involving 240 acres (.05% of district lands).
- Revision of Bushnell-Irwin Rocks from an ACEC to an ACEC/RNA.

Seven alternatives that encompass a spectrum of realistic management options were considered in the planning process. The final plan is a mixture of the management objectives and actions that, in the opinion of the BLM, best resolve the issues and concerns that originally drove the preparation of the plan and also meet the plan elements or adopt decisions made in the Northwest Forest Plan/ROD. The Northwest Forest Plan/ROD was signed by the Secretary of the Interior who directed the BLM to adopt it in its Resource Management Plans for western Oregon. Further, those decisions were upheld by the United States District Court for the Western

District of Washington on December 21, 1994.

Ecosystem Management and Forest Product Production: The ARMP/ROD responds to the need for a healthy forest ecosystem with habitat that will support populations of native species (particularly those associated with late-successional and old-growth forests). It also responds to the need for a sustainable supply of timber and other forest products that will help maintain the stability of local and regional economies, and contribute valuable resources to the national economy on a predictable and long-term basis. BLM-administered lands are primarily allocated to Riparian Reserves, Late-Successional Reserves, General Forest Management Areas, and Connectivity/Diversity Blocks. An Aquatic Conservation Strategy will be applied to all lands and waters under BLM jurisdiction.

Approximately 89,900 acres will be managed for timber production. The annual allowable sale quantity will be 7.0 million cubic feet (45 million board feet). Standing trees; snags; and down, dead woody material will be retained to contribute to biological diversity.

Wild and Scenic Rivers:

Approximately 29 miles of river found eligible for designation and studied by BLM will be found not suitable for designation.

Most BLM-administered lands will remain available for mineral leasing and location of mining claims, but 28 acres will be closed to leasing for oil and gas and geothermal resources, and 5,070 acres will be closed to location of claims.

The Proposed Resource Management Plan will designate or redesignate the following ACECs and RNAs:

331 acres
Bushnell-Irwin Rocks
